

CODE ENFORCEMENT SIGNIFICANT ACTIVITIES REPORT

March 2019

Code Enforcement spent time with residents educating them on trash pick-up guidelines as this is always an ongoing issue. With storm damage and spring cleaning, many residents were putting items at the end of their driveway in violation with city ordinance. Here is a brief review of Code Enforcement Activities for March:

Shifts worked: 4-toal 32 hours

Most types of complaints: downed trees/limbs, junk set out on streets, furniture put on streets for pick-up not wrapped up in plastic to protect garbage men from possible bed bug exposure, questions concerning ordinances

2 new complaints from residents: Both corrected.

Self-initiated complaints- 9 violations observed. 8 corrected through mediation, working with last one to resolve.

Previous Complaint Update: Able to close out 2 previous open complaints.

Citations issued: One citation issued.

Otto Mock
Code Enforcement Officer
